

## **Glimpse of the Cosmos: Orion's Expedition. (GOTC)**

"Glimpse of the Cosmos: Orion's Expedition" is an immersive Location-Based Entertainment (LBE) experience that transports visitors into a thrilling space adventure. Set in a bustling city, this venue offers a journey into a far-off galaxy where participants become the heroes of their own cosmic story.

The experience begins in a grand lobby, dividing into two areas: a general area with educational exhibits about space, and the main attraction, "Orion's Expedition." The adventure kicks off at Galactic Headquarters, where visitors learn about the Galaxy Defense Force (GDF) and its leaders, Commander Orion, Captain Vortex, and Tech Wiz. Suddenly, an alarm signals a mission to stop the sinister Cosmo Controllers from obtaining a powerful artifact.

Visitors are "teleported" to Space Station Alpha and divided into teams to repair their spaceships before embarking on a thrilling ride through a wormhole. The journey is a high-adrenaline rollercoaster simulation with stunning visuals, ending with the recovery of the artifact.

The experience culminates in a dramatic battle at Battleground Zero, where participants, divided into aero fighters, shooters, and defenders, must strategize and fight off the Cosmo Controllers. After the victory, they are celebrated in the Hall of Legends, receiving personalized medals and mementos of their adventure.

"Glimpse of the Cosmos: Orion's Expedition" offers a blend of education, entertainment, and immersive storytelling, leaving visitors inspired by the vast possibilities of the cosmos.
