

Tidal Zone Café

This unique setting amongst the tidal zone rocks will offer a variety of fast-casual dining with high quality selections. Two unique features of this will be the pizza oven where guest choose the toppings (including sauces) that they would like. In a few minutes their fresh pizza exactly how they would like it is ready. Another unique feature will be the hot dog toppings selections. Guest can pick out their favorite topping for their hot dog (and type of hot dog) from classic to gourmet. Anything you pick will be added so have it your way.

There will also be garlic bread and salads as an option for dining.

Desserts that will be available will be locally made frozen fruit bars and everyone's favorite Dippin Dots.

A very important feature of this café is to have a connection with locally grown community foods. Support the people that are supporting you and show the community what is available to them and being grown just beyond their own backyards.

To try and remain carbon neutral The café should separate the recyclable trash and serve food using recyclable utensils, plates and napkins. Also very important that the food scraps are recycled and used for food for the animals in cooperation with local farms.
