

# MOTHMAN'S CRYSTAL CAVERN

Explore the abandoned mine shafts full of glowing crystals that Mothman calls home. Interact with the glow-in-the-dark environment to generate more light that fascinates Mothman. Make your way to the top of the crystal rock wall, following the path of lit up gems that guide the way as you climb. Every climb is a new one as the gems' light new paths and can create courses based on a range of difficulty.
