# GUEST EXPERIENCE

*Farm to Fable* comes to your local botanical garden, farm, vineyard, or city park with a variety of themed dining experiences inspired by stories about food from around the world. Guests will journey either on foot or by charming tandem-bitecycles through the garden, stopping at kiosks for a light bite and quick sensory or theatrical experience. Each kiosk will tell its story through both design and personal interactions with storytellers and enchanting puppets, along with opportunities to participate in the farm aspect of *Farm to Fable* – location permitting.

Once at the botanical garden, Guests are directed to a walled garden-like area, but where stone partitions might stand, giant library books with worn, vintage covers tower in their place. There, they will receive their menu and an opportunity to climb aboard a tandem-bitecyle— a group vehicle inspired by garden-fresh dining, complete with citrus wheels and cheese slice seats! Guests are then let-loose in the garden, free to discover the many dishes and tales offered throughout the berm.
